

Get started on MYC4

It's easy to join MYC4 - you can invest within minutes.

MYC4 facilitates loans to African Businesses, and in doing so is striving to end poverty. By focusing on the power of business as the driving force to end poverty, MYC4 provides you with a way to support new Businesses in Africa.

You can invest in one or as many Businesses as you want. You can invest as an individual, as a group, as a company or as an organisation.

On MYC4 you can see all Businesses open for bidding. The reason why MYC4 has made it possible to place Bids, is to facilitate the cheapest loan conditions on the market for the Businesses.

If your Bid is competitive it will get accepted and you will get an e-mail with a notification that the loan has been paid out to the Business. Once the loan has been disbursed you will automatically receive your repayments on your MYC4 Account on a monthly basis.
